in Indian context

relates to religious nuns involved in socio economic projects in India

the ten papers in this volume form a good idea of what the rural development issues are and what the PRIS can do to address rural development concerns

Biodiversity and Livelihood Lessons from Community Research in India is a compilation of research articles on the ecological biodiversity and local conservation efforts of selected regions in India and among local communities throughout the country. 18 chapters have been contributed by experts in ecology, sustainability, and ethnic studies in India. The chapters provide information on a wide range of topics which cover local communities, their agricultural practices, and the ecological relationships between their community and the species on which their livelihood depends. Contributions emphasize different aspects of these topics such as observational ecological information about the aforementioned regions and communities, the local biodiversity, tribal customs of ethnic communities that are linked to conservation specific programs which are aimed at the conservation of specific plant and animal species endemic to the region, the benefits shared by the communities involved with conservation programs, and recommendations

shared by the authors for sustainable management of the regional ecosystem and its resources readers will find a wealth of information about biodiversity conservation in different regions in india most notably the western and eastern ghats and provinces such as kerala and andhra pradesh from a basic and applied perspective the book is therefore an informative reference for conservationists ecologists environmentalists and ethnologists who are studying the biodiversity and conservation of india readers involved in sustainable development programs in the region will also find the content valuable to their knowledge

study based on three districts of tamil nadu namely kancheepuram tiruchchirāppalli and vil uppuram irāmacāmpip paṄaiyāṄciyār māvāṄam
