9 jul 2020 i m adding some unit tests for my asp net core api and i m wondering whether to unit test the controllers directly or through an http client directly would look roughly like this

23 nov 2016 how do i do this it s not much of a hassle but at times it would be quite convenient if i could just double click on the php html file to test my php scrips on my localhost xampp server

we would like to resolve this issue and decide if test environment should belong to development team or business team developers don t want business to put their nose in test env but business team

31 aug 2018 another example if you test a workflow it makes sense to have an integration test that tests the paths by mocking the single steps activities personal opinion controversial and there are

we test private methods by inference by which i mean we look for total class test coverage of at least 95 but only have our tests call into public or internal methods

18 sep 2023 integration testing asp net core with identity best practice to add testusers asked 2 years 4 months ago modified 2 years 4 months ago viewed 406 times

best practice therefore if you consider the occurrence of a specific situation at run time as a bug that you would like to inform the developers about hi developer this condition indicates that there is a

6 oct 2015 the approach i would recommend based on recent experience of testing java ee 7 and spring based codebases is use per feature integration tests and avoid unit tests and mocking

small update simeon visser has a good point but the code above where just functions too ad some context to my questions which just is how can i re use test cases on different functions i guess

18 apr 2009 18 no it is not a bad practice if the method you are testing returns a class you should test the different variables that should have been set for this purpose you might as well use one unit
